4 or 5-digit NHCP practice codes. practice be reported. May report up to live code C, SNC, SBC require at least one

AC .

Conditionally Actively Applying.

AH.

Actively applying with a variance, because an extreme personal hardship or unusual occurrence

Actively applying with a variance, because severe and unusual conditions beyond the person's

control prohibited application of the required planned practice (e.g. weather)

Actively applying an approved conservation plan (and maintaining all existing practices)

Using an approved conservation system (fully applied and maintaining all practices).

STATUS REVIEW DETERMINATION CODES

Potential wetland violation.

Not actively applying.

Actively applying with a minimal or technical effect variance.

exists. (e.g. death, illness, extreme personal hardship)

Plan not needed (e.g. no HEL fields, noncropland 1981-1985 nor sodbusted since)

3

FSA plan is fully implemented. SNC, and SBC; optional for all fields with Land Unit Code C. Required entry for CRP, HEL in the field, the before FSA soi value for the predominant soil erosion rate, and the planned erosion rate for the field after Enter soil loss tolerance integer

EROSION BATE being used by the producer. Use the Enter the average annual erosion tillage, and conservation system rate based on the actual rotation, CUBBENT AVG. ANNUAL EBOSION BATE

with land unit code C, SNC, & SBC; Required entry for CRP, HEL fields crop rotation beginning with the year optional for all other fields. the approved rotation began,

(19) Enter the maximum ACS erosion rate which meets FOTG Required entry for HEL fields with L.U. code C, SNC, and SBC. requirements for the soils and crop sequence in the field.

(30) Enter acres for the wetland area

(31) Enter the wetland label (i.e., AW, AW/FW, AW/W, CC, CW, CWyr, CWNA, CWTE, FW, FWP, GFW, GFWyr, MIW, MW, NI, NW, OW, PC, PC/NW, RPW, RSW, RVWyr, TP, W, WX).

(32) Enter Y or N for whether or not a welland determination had been previously made.

NHCP practice codes are contained in National Handbook of

Conservation Practices, Notice 115, April 1995

37. BASIS FOR NOT ACTIVELY APPLYING DETERMINATION been received or is being requested. Basis for not actively applying determination, variance, and practice maintenance required are to be noted below on this form. If "not actively applying or not using an approved conservation plan or an approved conservation system" or "potential violation" was determined for any field a Form ASCS-569 must have

REASON FOR VARIANCE

39. PRACTICE MAINTENANCE REQUIRED
